

AntimaFX Studios

Placement Program

Introduction

According to recent news in a leading Business Magazine, the Indian Software market would require 235,000 Professionals every year to meet demand of industry. But unfortunately the pool of skilled manpower in this field is shrinking.

To meet this mammoth requirement, Antimafx believes there is a significant need in concentrated training programs that allow applicants to find employment or enhance their skills to achieve better careers.

About Antimafx

AntimaFX is a multimedia game and design firm dedicated to 3D Art, Visual Effects, Game Production and Core Game play Prototyping. AntimaFX was founded in 2006 by an interesting group of entrepreneurs. The management team has people from diverse backgrounds like gaming industry, web technologies, animation and movie industry, MNCs (Intel, GM, and McKinsey & Fidelity Investments).

Our team members have done stints in countries spread across the world. This brings a unique technical and cultural background to AntimaFX and the ability to understand the creative needs of a contemporary audience. We have a large team with experience in high profile projects for reputed production houses around the world.

Our relationship with clients is highly collaborative and mutually beneficial. We add value to their business and help them focus their energies on the core competencies. We work to build long term relationships with clients.

Program Overview

The program is designed to “train-the-right applicant” to support the applicant to get into the job market (or to take the career to the next level). This program will focus on hands-on training in the job industry.

The Program will provide applicants with a ready-to-work, complete training for basic hands-on training and work implementation.

Program Features

- Opportunity to engage in different “**LIVE Projects**”
- Individualized instruction, with only less than 5 applicants per group
- Seminars are held at regular intervals
- Experienced and knowledgeable Software Engineers to guide
- Placement with AntimaFX

Training Facility

AntimaFX has its own training facility in Chennai. The Facility is equipped with the right infrastructure needed to bring out the best in the candidates. The Facility is managed by AntimaFX Software Professionals. All training sessions are taken up by these individuals having ample industry and training experience.

Training Period

The program runs for a 12 week period. This is a fulltime program Mon-Sat, from 10 am – 6pm.

Certification

On successful completion of the program the candidate would get a Training certificate from AntimaFX. Trainees, who work on live Projects, will be issued an Experience Certificate.

Placement Scope

AntimaFX assures placement with AntimaFX itself, depending upon the performance being appraised on completion of training.

How to Apply

Candidates should submit their resume before the start of training period. Applicant's pursuing degrees have to apply for industrial training by submitting a letter from their college authority.
